DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1 – 10 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The independent claims have the language referring to the input and output ends of the first screen. This renders the claims indefinite because the first screen outputs from both ends and additionally the input can be at either end (Figs. 1A and 2A).

3. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 5 recites the limitation "the third frame" in line 5. There is insufficient antecedent basis for this limitation in the claim.

5. Additionally, the embodiment described in claim 5 has more than one conveying direction, without any distinctions made. This renders the claim indefinite.

6. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. What is meant by "enclosure"?

7. Claims 11- 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The language "irregular outer contour" renders the claim indefinite. What is

Art Unit: 3653

irregular? What is regular? What has the "irregular outer contour"? This is not clear in the claim.

8. Claims 12, 13 and 15 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims have antecedent basis problems among other issues. The Examiner believes that claim 12 was intended to depend from claim 11 and not claim 1. This has been assumed for examination purposes below. However, these claims as written are indefinite.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 1 – 3 and 6-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bielagus.

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art is listed in the enclosed Form 892. Any amendments should be reconciled with these references as well.
